

KEVIN D S

UI/UX Designer | Hybrid Engineer | AI & Data Science

kevinds2k4@gmail.com · +91-6379770811 · kevin.vercel.app · linkedin.com/in/kends2k4

Chennai, Tamil Nadu, India

OBJECTIVE

Final-year B.Tech student specializing in Artificial Intelligence and Data Science, with expertise in UI/UX Design and ML frameworks, aiming to develop user-centric digital products. Proficient in Figma, Framer, Adobe Creative Suite, TensorFlow, and Scikit-learn. Experienced in designing responsive interfaces, building ML-integrated systems, and delivering intuitive experiences at the intersection of machine intelligence and human-centered design.

EDUCATION

B.Tech in Artificial Intelligence and Data Science – Panimalar Engineering College, Chennai | Expected May 2026

TECHNICAL SKILLS

Design & UI/UX: Figma (Advanced), Adobe Creative Suite, Framer, Anima, Responsive Design, Wireframing, Prototyping, Information Architecture, Usability Testing

AI & Data Science: TensorFlow, PyTorch, Scikit-learn, Machine Learning, Computer Vision, Natural Language Processing, Power BI, Tableau

Web Technologies: HTML5, CSS3, JavaScript, React **Languages:** Python, Java, SQL

Product Strategy: User Research, Interaction Design, Competitive Analysis, Design Thinking, Agile Methodology

PROJECTS

Exchange Ease – Digital Barter Marketplace

- Designed end-to-end UI/UX covering user flows, wireframes, and high-fidelity Figma prototypes across 10+ screens
- Led user testing sessions that reduced onboarding friction by 40% by simplifying the exchange flow to under 4 steps

Song Suggesting AI with Face Recognition

- Developed UI for an emotion-aware music recommendation system using facial recognition and ML models
- Collaborated with ML team to integrate TensorFlow-based model outputs, improving user interaction quality by 35%

Customer Lifetime Validation Dashboard

- Architected data visualization layouts in Figma to communicate customer metrics clearly, reducing stakeholder review time by 25%

UI/UX Portfolio – Kenhed Proser | Exchange Ease Redesign | Kennie Skates E-Commerce

- Executed UX audits and redesigned key flows across 3 client products, improving visual hierarchy and usability scores by 30%
- Managed full e-commerce UX delivery for Kennie Skates including product pages, cart flow, and checkout experience

WORK EXPERIENCE

IoT Intern – Innovate Intern, Chennai | June 2024

- Engineered an Automated Water Pump Detection System using Arduino and sensor modules, applying real-time data monitoring aligned with AI-driven automation
- Spearheaded documentation of hardware-software integration workflows, reducing manual monitoring effort by 60% and improving fault detection speed by 45%

CERTIFICATIONS

- Earned Oracle Cloud: Generative AI Certification (July 2024)
- Completed Figma for UX Design | UX Foundations

ACHIEVEMENTS & ROLES

- Received Student Coordinator Award on Achievers Day for exemplary leadership and design contributions
- Led 5+ awareness programs and events as Student Coordinator, AI & DS Dept, PEC
- Designed promotional materials for 10+ campus events as Graphic Designer, YRC Youth Wing, PEC
- Represented Leo Club of Mavericks (Lions International) at district-level events and community service drives
